

pdf2ppt: Convert PDF Slides to PPT

Teddy van Jerry (Wuqiong Zhao)

December 25, 2024

Motivation

Typst users are often confronted with the annoying situation:

Submit PPT files not PDF files!

So... we still use `typst` to create the slides, but convert the PDF slides to PPT files, each slide as a SVG converted from PDF.

[ashafaei/pdf2pptx](#) is a wonderful project, but the image quality is limited, and seems a bit buggy.
