

# pdf2ppt: Convert PDF Slides to PPT

---

Teddy van Jerry (Wuqiong Zhao)

December 2, 2023

$\text{\LaTeX}$  users are often confronted with the annoying situation:

*Submit PPT files not PDF files!*

So... we still use **beamer** to create the slides, but convert the PDF slides to PPT files, each slide as a SVG converted from PDF.

[ashafaei/pdf2pptx](#) is a wonderful project, but the image quality is limited, and seems a bit buggy.
